

Holistic Vetcare International

Dr Michael Bascombe

B. Sc., B.V.M.S. Dip P.H., Cert Hom.

Incorporating the experience of 20 years in regular Veterinary Practice with 10 years in the field of Natural Therapies. Providing a broad-based approach to maintaining your animal's health

Treating a wide range of veterinary conditions - acute and chronic - in all creatures great and small. Including preventative therapies, dietary related problems, behavioural/emotional conditions, all types of lameness, skin problems and any unresolved and recurring complaints or conditions resistant to regular therapies.

Australian Association of
Holistic Veterinarians

Introduction

Originally trained as a Health Surveyor, I moved into veterinary medicine, graduating from Murdoch University in 1984. I began practice in Perth and soon after built a small animal hospital that grew into a three-vet practice applying world's best standards in animal care.

I continue to learn and apply the successes of complementary therapies, including: Intuitive diagnosis, Homoeopathy, Flower Essences, Geomancy, Bowen Technique for Horses, animal communication and behaviour, and energy balancing, under a wide range of conditions.

I have successfully treated many animals over the last decade and continue to expand my knowledge and experience teaching intuitive communication and healing to animal owners and practitioners.

Approach

A completely holistic approach is applied in a caring, comprehensive way to help resolve your animal's particular problems and balance all aspects of its life, using the most appropriate therapies to help return your pet to 'normal'.

Following a detailed interview and examination covering every aspect of environmental, external, internal, emotional, and general wellbeing, a treatment and management plan is developed and initiated. Open communication is encouraged, as the healing progresses to resolution of the problem. Appropriate adjustments may be made along the way.
